Portfolio

SUMMARY

M.Sc. IT graduate in IMS & Cloud Technology/Computing. with practical and theoretical knowledge of networking infrastructure, hardware, and IP protocols. I've hands-on experience working with **AWS, Microsoft Azure, and GCP** cloud services, willingness to learn & self-motivated interested in contributing to innovative, cloud-based solutions. seeking an opportunity to apply as per my skills & knowledge gain hands-on experience, and growing my expertise in dynamic cloud environments.

EDUCATION

- **M.Sc. I.T. in IMS & Cloud Technology Gujarat University, Ahmedabad, Gujarat.**
Masters of Science Information Technology in Infrastructure Management System & Cloud Technology.
Sept. 2024 – June 2026 **CGPA: 7.59**
- **Bachelor of Computer Application (BCA).**
Gujarat Technical University, Ahmedabad, Gujarat | July 2021 - April 2024 **CGPA: 5.98**
Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Computer Networks, Web Development, Operating Systems, Artificial Intelligence & Machine Learning.
- ✓ **Higher Secondary Certificate (XII),** Model Higher Secondary School, Ahmedabad, Gujarat,
Board: GSEB, 2021 — Passed.
- ✓ **Secondary School Certificate (X),** Model Higher Secondary School, Ahmedabad, Gujarat,
Board: GSEB, 2018 — Passed.

WORK EXPERIENCE

Device Management Service Executive/IT Support Executive.

Currently Working at KANTAR IMRB - **Div. Of Hindustan Thompson Associates Pvt. Ltd.**

Technical Systems & Endpoint Management Experience

- **Automated Device Onboarding & MDM Enrollment:** Provisioned, configured, and deployed corporate laptops, smartphones, and tablets using automated tools enrolled all devices into Scalefusion MDM (Mobile Device Management) to ensure seamless onboarding for internal staff and remote field teams.
- **Security & Compliance Policy Enforcement:** Managed BYOD and COPE (Corporate Owned, Personally Enabled) onboarding workflows in ScaleFusion and Microsoft Intune, establishing strict security profiles, storage encryption, passcodes, and DLP (Data Loss Prevention) controls across all corporate endpoints.
- **Network & Identity Access Management:** Administered secure corporate Wi-Fi onboarding utilizing Microsoft Azure credential redirection (captive portal), ensuring seamless identity verification and access control for company devices.
- **Remote Security & Incident Response:** Conducted routine compliance audits and performed real-time remote actions—including device lock/unlock, password resets, and selective/full remote wipes—to protect sensitive market research data on lost, stolen, or retired hardware.
- **Field Application Operations (Nfield):** Supported end-to-end field data collection by provisioning tablets with the Nfield application, resolving script synchronization errors with the Nfield Server, and coordinating with Executive Interviewer Controllers (EICs) and Freelance Professionals (FLPs).
- **Tier L2/3 Technical Support & ITSM:** Diagnose and resolve OS-level errors, app crashes, and network connectivity issues, accurately tracking all incidents and resolution metrics in ServiceNow.

ACADEMIC PROJECTS

Semester 3 – Cloud Security Implementation & Compliance using AWS – (In-House)

- Designed and implemented a comprehensive cloud security framework on AWS, covering identity & access management (IAM), security group policies, encryption, compliance auditing, and monitoring using AWS CloudTrail, Config, and Security Hub to ensure regulatory compliance.
[**Services Used:** AWS IAM, AWS Security Hub, CloudTrail, AWS Config, Compliance.]

Internship

Semester 4 – CoAxn Technology, Ahmedabad.

6 Months.

AI-Driven Serverless Vision – Automated Image Analysis & Metadata Extraction in Azure

- Built an AI-powered serverless pipeline on Microsoft Azure that automatically analyses uploaded images using Azure Computer Vision (Cognitive Services), extracts meaningful metadata, and stores results in Azure Cosmos DB — all orchestrated via Azure Functions with a fully serverless, event-driven architecture.
[**Services Used:** Azure Functions, Computer Vision API, Cosmos DB, Blob Storage, Serverless.]

CLOUD & INFRASTRUCTURE SKILLS

Infrastructure & Networking: Windows Server (2016/2019/2022), Active Directory (ADDS), Group Policy (GPO) TCP/IP, DNS, DHCP, VLANs, Firewalls, Routers, Switches (Cisco), PC troubleshooting.

OS Installation & Configurations Software: Windows 10, 11 Pro, Dual-boot setup, Linux/Unix (Red-hat, Ubuntu, CentOS, MintOS), Office 365, Virtualization (VMs, VirtualBox), Hypervisor-V, CUCM (VoIP), ESXi.

Programming & Scripting: Python (Intermediate), C/C++ (Basic), PowerShell, Bash/Shell - Scripting, CMD, CLI.
Databases: Django (Basic), MySQL, PostgreSQL (Basic), MongoDB (Intermediate).

Tools: Git, GitHub, Git-Lab, Vercel, Visual Studio Code, Cursor, MySQL - Server Management Systems, npm, yarn.

Cloud Platforms: AWS (IAM, MFA, EC2, S3, RDS, VPC, ELB, CloudWatch), Microsoft Azure 365 (Azure Functions API's keys access management, Vnet, Blob Storage, Computer Vision), Google Cloud Platform, Heroku.

Other Skills: OOPs, Printer, Cisco (Packet Tracer), G.N.S, Telnet.

CERTIFICATIONS

- Tally ERP V.9 (GST%)
- Cisco Networking Academy CS (E-Certificate)

LANGUAGES

- **English:** B2 - Upper-Intermediate
- **Hindi:** B2 - Upper-Intermediate
- **Gujarati & Urdu:** C1 - Advanced.
